DETAILED ACTION

Formal Matters

Claims 40-47, 50-54, 62, 131-134 are pending and under consideration.

Response to Amendment

The rejection of claims 50-54, 131-134 under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter has been obviated by Applicant's amendment and is thus withdrawn.

The rejection of claims 50, 52, 131, 132 under 35 U.S.C. 112, first paragraph, because the specification lacks enablement, has been obviated by Applicant's amendment and is thus withdrawn.

Then rejection of claims 50-54, 131-134 under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,959,313 (Taketo), has been obviated by Applicant's amendment and is thus withdrawn.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

1. Inventor David Housman did not date his signature.
2. The claim for priority to Provisional Application 60/108,685 filed 11/16/1998 is missing.

Claim Objections

Claim 44 is objected to because of the following informalities: the claim recites "Herpes simplex", presumably the claim is meant to be drawn to "Herpes simplex virus". Appropriate correction is required.

Claim 62 is objected to because of the following informalities: the claim recites "culturing a host cell of any of claims...", while the claim would be more clear by reciting "culturing a host cell of any one of claims..."

Sequence Rules

When a sequence is presented in a drawing, regardless of the format or the manner of presentation of that sequence in the drawing, the sequence must still be included in the Sequence Listing and a sequence identifier ("SEQ ID NO:X") must be used either in the drawing or in the Brief Description of the Drawings. See MPEP § 2422.02. In the instant application, a sequence identifier must be used for the sequences appearing in Figure 2 and 3.

Appropriate correction is required.

Drawings

The drawings filed on 10/22/1999 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Claim Rejections - 35 USC § 112 second paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 40-47, 50-54, 62, 131-134 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 40 and 45 are indefinite in that they recite a recombinant vector “including” a nucleotide sequence. The metes and bounds of this claim cannot be determined. The dependent claims are rejected insofar as they depend on the recitation of the term “including” in claims 40 and 45. This rejection could be obviated by amending the claims to recite “comprising” instead of “including”.

Conclusion

No claim is allowed.
